28th Annual Interdisciplinary Breast Center Conference

NCBC 2018
March 9-14 • Paris Las Vegas

Dr. Judy Garber
An Internationally Renowned Expert in Genetics and Breast Cancer.

Dr. Cary Kaufman
Surgeon, Oncoplastic Surgical Course
March 10 - 11
NCBC Quality Program - NQMBC

Dr. Christiane Kuhl
Diagnostic and Interventional Radiology, Radiology Masters Series

Louise Miller, Radiology Technologist
Master Technologist Course

Over 80 World Class Speakers

Earn Up to 35.75 CME’s

Attention Surgeons: Oncoplastic Course with Lab See Pgs. 8-11

Register by Feb 1st to get Early Bird Rates!
Assessment of Need:

Over 200,000 women will be diagnosed with breast cancer annually, accounting for 30% of all new cancer cases in women. This makes it the most common cancer diagnosis in women. This program’s intent is to increase the quality of breast care provided to women across the globe through the interdisciplinary education of breast health professionals. Many breast healthcare practices are not standardized and this conference provides a learning and networking environment enabling breast professionals to learn about genetics, risk, the latest treatments, technologies, procedures, become certified and sharpen their skills in detecting and treating breast cancer. Treating breast cancer includes risk assessment.\(^1\) The conference also provides a review of selected topics throughout the field of breast health care.\(^2\) An analysis of peer-reviewed journal articles, new guidelines and past participant evaluation analysis have identified technical areas of focus which include the evolution of a breast center, breast specific gamma imaging, using breast MRI as a screening tool, improving RT/Radiologist relations, digital positioning, ultrasound imaging, biopsy techniques, lobular neoplasia, reverse axillary mapping, endocrine therapy, treating the breast cancer survivor\(^3\), coding and reimbursement procedures. Patient centered focus areas include: providing care to the underserved communities, patient tracking tools, assessing the high risk patient, reconstruction options, starting a sexuality program in a breast center, supporting the breast cancer survivor, and patient satisfaction. In each of these areas, lectures will include controversies, recent developments and recommendations from experts in the breast health care field. This program has been developed specifically for the entire breast center team from administrative staff to breast clinicians. It is the intent of our educational activity to provide breast health care professionals objective, evidence-based clinical content, which they can incorporate into their practice to improve clinical care and outcomes of their patients.

**NCoBC 2018 Scholarship Available**

The Natosha Lynne Morton Scholarship funded by MagView\(\textsuperscript{a}\) is to provide recognition to those Breast Health professionals who best exhibit character, compassion, and caring in conjunction with providing the best possible care to patients by paying their conference registration fee to attend the 28th Annual Interdisciplinary Breast Center Conference March 9 - 14, 2018 in Las Vegas, NV. Applicants must complete the questionnaire below to the best of their ability. Content will be scored by the NCBC staff based on the evidence of character, compassion, and quality of care.

**Prerequisites for NCoBC 2018 Scholarship Consideration**

Applicants Must:

1. Be a first-time NCoBC Annual Interdisciplinary Breast Center Conference attendee.
2. Be a current NCBC Independent Health or Facility Member.
3. Be a practicing breast health professional or advocate.
4. Fill out the application online found at: https://www2.breastcare.org/welcome-to-the-annual-national-interdisciplinary-breast-center-conference/
5. Be able to pay their own transportation and accommodation fees.
6. Sign a consent form allowing NCBC and Magview\(\textsuperscript{a}\) to publicize name/photos for future marketing campaigns.

**Other Notes:**

• The Natosha Lynne Morton Scholarship does not cover NCBC membership.
• The scholarship only covers the cost of the general conference. Post conference workshops or certification exams are at the winner’s expense.
• Deadline for application is December 15, 2017.
• Winner will be announced on or before January 10, 2018.

Oncoplastic Course Highlights

- Lecturers are nationally known breast surgeons showing their insights and experience with oncoplastic techniques.
- Essential techniques that all surgeons can master will be discussed.
- There will be practical labs on both days of the course, allowing in depth hands on experience using the latest Mastotrainers.
- Lecturers will demonstrate their techniques in the lab to be followed by the attendees performing the procedures in a “see one, do one” teaching method.

Course limited to 50 attendees. See pages 8-11
Credit Hours

Core Competencies
In alignment with the CME mission of the University of Tennessee School of Medicine, programs are planned in the context of desirable physician attributes and core competencies (six abilities that are central to the practice of medicine): 1. Patient Care, 2. Medical Knowledge, 3. Practice Based Learning, 4. Interpersonal and Communication Skills, 5. Professionalism and 6. Systems Based Practice, as designated by the American Board of Medical Specialties. Core competencies addressed in each of the activity objectives below, this shall serve the best interests of the public and assist in Maintenance of Certification.

Objectives
- Understand the unique and focused role of integrated breast cancer care and importance of coordination of care between the interdisciplinary team (physicians, nurses, navigators, advance level providers, technicians, administrators, genetic counselors etc.) involved in the evaluation and management of patients evaluated at multidisciplinary breast centers
- Ensure that all breast health specialists have the most current information that enables them to provide state-of-the-art care to all of our patients
- Learn the basics of patient positioning and unit set-up for tomosynthesis-guided and upright stereotactic biopsy
- Identify problems related to mammography positioning
- Explain the importance of consistency & reproducibility for positioning standards
- Understand navigator roles and the differences between different forms of navigational practices
- Understand how breast cancer risk assessment improves identification of high risk women and guide appropriate risk reduction strategies
- Appreciate management of high risk breast lesions (atypical hyperplasia and lobular carcinoma in situ)
- Identify the pros & cons of extended endocrine therapy
- Discuss the potential benefits of a navigator to an entity/organization
- Describe the key practice changing and advances in breast surgical oncology, medical oncology, radiation oncology and breast imaging in 2017-2018
- Understand oncoplastic surgical techniques
- Awareness of novel breast cancer genes and impact on breast cancer prognosis
- Understand special considerations in the young breast cancer survivor
- Awareness of practice changing opportunities to enhance survivorship care
- Appreciate advances in the management and treatment of inflammatory breast cancer
- Advances in early diagnosis of breast cancer utilizing various breast imaging modalities including tomosynthesis, ultrasound, breast MRI and other modalities
- Identify chemotherapy and radiation induced sexual problems and risk reducing procedures that affect sexuality
- Understand the patient experience: What the women really wants?
- Appreciate the controversies and treatment options for ductal carcinoma in situ
- Describe the impact of breast cancer on the couple relationship
- Attention paid to genetic risk evaluation, screening, quality of life, palliative care, etc.

Credit Hours
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the University of Tennessee College of Medicine and the National Consortium of Breast Centers. The University of Tennessee College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

AMA: The University of Tennessee College of Medicine designates this live activity for a maximum of 35.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

PA’s, NP’s and Nurses: Physician Assistants, Nurse Practitioners and Nurses may use these credit hours toward certification renewal. This credit is acceptable by the American Academy of Physician Assistants (AAPA), American Nurses Credentialing Association (ANCC) and the American Academy of Nurse Practitioners (AANP).

BRN: Credits are arranged through with The California Board of Registered Nursing.

ASRT: Continuing Education Category A credits are being arranged through the American Society of Radiological Technologists (ASRT). Each 30 minutes of contact time is awarded .5 CE credit. Each contact hour is equal to 50 – 60 minutes and is awarded 1 CE credit. This program is relevant to the radiologic sciences profession.

2017 Inspiration Award Recipient
A. Thomas Stavros, MD, FACR

Special Recognitions

2017 Impact Award Recipient
Matthew Ellis, MB, BChir, PhD, FRCP
Dear Colleagues,

As President, it is my honor to welcome you to our 2018 interdisciplinary conference. The program content has been developed specifically for the entire breast center team, from administrators to clinicians. Whether you are here for up-to-date information from luminaries or are here with your team to network, we are all here for the same purpose – to optimize and better coordinate the care we deliver.

Based on feedback from last year’s attendees, this year’s program includes a unique and innovative oncoplastics course, and an imaging preconference with exceptional faculty.

I would like to thank the program committee and the conference chair, Dr. Sandhya Pruthi, for their year-round dedication to this organization and hard work putting together this unique and exciting program.

Warm Regards,

Kristie Bobolis MD
President, NCBC
Medical Director Breast Cancer Program
Sutter Roseville Medical Center
Roseville, CA

Dear Colleagues,

In my capacity as this year’s program chair, I am delighted to welcome you to our 2018 annual conference. We have an exciting program with a multidisciplinary lineup of national and international experts in the field of breast health and cancer care. The program entails multiple tracks that focus on the diverse and comprehensive educational needs of all providers within the breast center including nurse navigators, administrators, genetic counselors, radiological technologists, breast physicians, advanced practice providers and international attendees. The Sexual Health First Responder’s course will be offered again this year, as well as updated information on breast imaging modalities, survivorship, navigation, high risk clinical cancer genetics, and a multidisciplinary tumor board. In addition, we have included topics on Global Breast Care, Practice Changing Advances in Breast Cancer and Health, and Hormone Therapy and Quality of Life in Hormone Receptor Positive Breast Cancer.

The post conferences offer comprehensive updates on administration, navigation, master technology course, clinical breast exam, cancer risk assessment and cancer genetics. We have a radiology master series-beyond screening preconference for radiologists/breast imagers which includes an amazing lineup of national and international speakers.

The impact and key value in attending the conference is the opportunity to learn from the multidisciplinary team of experts, diverse educational topics to enhance your knowledge, and ability to provide seamless, well-navigated, interdisciplinary breast health care to patients.

It is always inspiring to come together as a dedicated group of individuals with a shared purpose to further our knowledge and focus on patient centered care to enhance the patient experience and breast cancer journey.

It has been a sincere privilege to serve with the program committee this year as chair. Welcome to all new and returning attendees!

Sincerely,

Sandhya Pruthi, MD, FNCBC
Program Chair
Professor of Medicine
Consultant, Breast Diagnostic Clinic
Mayo Clinic
Rochester, MN
Hotel Reservations: Paris, Las Vegas Venue For 2018
The NCBC is proud to announce our 28th annual conference at Paris Las Vegas. Experience everything you love about Paris, right in the heart of the Las Vegas Strip. From the moment you walk into the Paris Las Vegas you will understand why this luxury hotel sets the standard for opulent details, impeccable service and lavish Las Vegas accommodations.

Book Your Hotel Today Online
Be sure to book your room for the conference within the NCBC room block to receive our LOW negotiated rates. Any room booked outside of our room block will be charged an additional $25.00 resort fee per night.

Book at https://aws.passkey.com/event/49358243/owner/1482103/home

AVOID Hotel Scams - NCBC does not work with any 3rd party booking agencies or conference planners. All of our accommodations are done directly through NCBC and the Paris Las Vegas hotel.

NCBC has block rooms for only $159 per night for a single or double occupancy. For a third person in the room (limit 3 people per room) add $30 to double room rate plus 12% tax per room, per night. With tax, the totals are $178.08 for a single or double and $211.68 for a triple. Reservations booked after February 11, 2018 are subject to room availability at the prevailing room rate. Hotel cancellations after February 11, 2018 will be charged first night room charges.

Transportation
Again this year we are partnering with LASxpress airport transportation service and will be offering cost-effective transportation service between McCarran Int’l Airport and your hotel.

Xpress Non-Stop service to Paris & Bally's Las Vegas for the 28th Annual Interdisciplinary Breast Center Conference attendees.

By utilizing this service, you are eligible for $11 one-way airport transportation service.

Other benefits include:
- Non-Stop Xpress Service Available for $18 per person
- 40+% Saving vs. Taxi Fare
- Immediate Boarding
- Airport Meet and Greet Service

Radiology Masters Series: Beyond Screening

Jay R. Parikh, MD, FRCP(c), FACR, FACPE, FNCBC

Radiology Master Series ‘Beyond Screening’ begins with these lectures. We will be discussing advances in early diagnosis of breast cancer utilizing various imaging modalities including Tomosynthesis, Ultrasound and MRI as well as recent advances in Artificial Intelligence. The theme continues into the regular session with a look at Emerging Technologies such as Molecular Breast Imaging and Radiogenomics. The focus will be on the ability of breast imagers to impact in the diagnosis of breast cancer and the evaluation of the effectiveness of therapy of outcome and survival.

Monday, March 12

7:00 - 8:00 am  Breakfast Symposium with Pfizer
Moderator  Sandhya Pruthi, MD, FNCBC

8:00 - 8:35 am  Policy, Politics and Breast Care – Survive or Thrive?  State Senator, Deb Soholt, RN

8:35 - 8:45 am  Inspiration Award  Presented by Cary S. Kaufman, MD, FACS, FNCBC

8:45 - 9:15 am  Breast Cancer Treatment: There is a Better Way  Suzanne Foster

9:15 - 9:45 am  Inflammatory Breast Cancer- The Dangerous Enigma  Beth Overmoyer, MD

9:45 - 10:15 am  Options for Fertility Preservation for Young Breast Cancer Patients  Halle Moore, MD

10:15 - 10:45 am  Break with Exhibitors
Moderator  Ricki Pollycove, MD

10:45 - 11:45 am  Hormone Therapy & QOL in Hormone Receptor Positive Breast Cancer
Understanding Estrogen Receptors Biology – From Laboratory Research to Patient Care  Richard J. Santen, MD
Estrogen Therapy & Quality of Life: Risks & Benefits  Shari Goldfarb, MD

11:45 - 12:15 pm  Update on Postmastectomy Radiation and Region Nodal Irradiation in N1 Disease  Julia White, MD

12:15 - 1:45 pm  Lunch with Exhibitors. This is the last opportunity to meet with the exhibitors.

Break Outs

Moderators

**Imaging:** Jay R. Parikh, MD, FRCP(c), FACP, FACPE, FNCBC
**Global Breast Care:** Atilla Soran, MD, MPH, FACS, FNCBC
**Navigators to Navigators:** Barbka Rabinowitz, PhD, MSW, RN, FNCBC

**Imaging / RT**
NQMBC – Rapid Report 10 Minute Breast Practices Geared Toward RT’s  
Terry Lynn Bucknall, BA, CRA, RT(R)(M), FNCBC; Tricia Trammell, CRA, RT(R)(M)(QM), CN-BI;  
Teresita Macarol, RT(R)(M)(QM), FNCBC

**Navigator to Navigator**
Case Studies  Melissa Hopkins, RN, BA, CN-BN, FNCBC  
Moderating with Eleanor Broaddus, RN, CN-BN, CBEC; Courtney Bowen, MS; Cheryl Townsend, RT(R)(M)(BS), CN-BI

1:45 - 2:15 pm  Phased Implementation: A Novel Strategy for Improving Breast Cancer Outcomes in Low and Middle Income Countries  Benjamin O. Anderson, MD, FACS
Advances in Oncoplastic Surgery: Brazilian Experience  Gustavo Matthes, MD, PhD
Advances in Radiology: Breast Cancer Screening and MRI in the US vs Abroad  Erkin Aribal, MD
Advances in Oncology; Systemic Breast Cancer Treatment in the US vs. Abroad  Naoto T. Ueno, MD, PhD, FACP

**Sexual Health First Responders**
Female Sexual Health & Breast Cancer: Understanding the Framework  Don S. Dizon, MD, FACP

**Imaging / RT**
The Transgender Population, Focused for the Techs  Emily B. Sonnenblick, MD

**Navigator to Navigator**
Case Studies Continued

2:20 - 2:50 pm  Overview of the Breast Health Global Initiative  Continued

**Global Breast Care**

**Sexual Health First Responders**
Say What? Numbing Liquid Can Bring Back That Lovin’ Feelin’?  Martha Goetsch, MD, MPH

Underwriters

The NCBC would like to acknowledge and thank the following underwriters for their educational grants in support of the 2018 conference.

March 8-13 • Paris Las Vegas
Post-Conference Course

Master Technologist Course
Dawn Derenburger, RT(R)(M), AART; Louise Miller, RT(R)(M), FNCBC; Danielle Higgins, RT(R)(M)(BS), ARRT

Mammography professionals will be presented with the most current techniques and advances used in mammography positioning for the detection of breast cancer, including implementation, presentation of proper positioning techniques and the importance of each positioning. Selection of spot compression and spot-magnification according to the mammographic findings will be explained. Challenging positioning examples will be explored with ways to address issues to

Monday, March 12

6:30 - 8:30 pm  Stereotactic: Dawn Derenburger, RT(R)(M), AART
This course will take you from the basics of Stereotactic Breast Biopsy, to advanced skills and troubleshooting, and how to prepare and master the accreditation process. Positioning techniques, along with problem solving, for both the upright and prone table will be reviewed and demonstrated during the hands-on session. Learn technologist and radiologist preparedness skills to make for a successful procedure, and ways to decrease patient anxiety and improve the patient experience.

Tuesday, March 13

7:00 - 7:45 am  Breakfast Symposium with Myriad

8:00 - 9:30 am  Mammography: Louise Miller, RT(R)(M), FNCBC
For the first time at any national conference the MILLER METHOD for excellence in mammography positioning will be introduced. This unique positioning technique combines lectures on correlative anatomy which follows the principles that technologists were taught in general radiology. The method uses updated positioning techniques that address equipment changes from FS to FFDM to DBT. This teaching technique (combined lectures and demonstration with live models) has been proven, by data (which has been approved for publication) that clearly identifies standards for image evaluation (how often should you expect to see IMF on an MLO). It is also shown to show an improvement in image quality of up to 50%.

This time will cover the fundamentals and advanced principals of mammography positioning based on general radiography principles. It is suitable for the new and the advanced mammography who wishes to become a Master of positioning. The MILLER METHOD is based on consistency, reproducibility and the proper use of body ergonomics that guarantee improved image quality and less repeats or rejects.

15 Minute Break

9:45 - 11:15 am  Mammography Positioning Demonstration and Problem Solving the CC and MLO

11:15 - 12:30 pm  Lunch on Your Own

12:30 - 2:30 pm  Ultrasound for Beginners: Danielle Higgins, RT(R)(M)(BS), ARRT
Practical positioning and understanding of different transducer approaches and manipulations used to obtain optimum images of the breast. Proper techniques for measuring structures on ultrasound images and understanding breast ultrasound artifacts; why they occur and describe techniques to minimize the occurrence of those that degrade the image. Basic overview of ultrasound physics, breast anatomy, ultrasound technique and Diagnostic US-characterizing masses with Pathology Correlation.

15 Minute Break

2:45 - 4:15 pm  Hands on Demonstration and Positioning to Enforce Proper Scanning Technique
Groundbreaking advances in cancer genetics over the last few years have revolutionized how we think about breast and other cancers. During this very exciting time in the field of oncology, we are offering a one day post conference addressing breast cancer risk assessment and genetics. This course will lead attendees through a comprehensive review of the process of hereditary breast cancer risk assessment, genetic testing, and the translation of this information into personalized cancer surveillance and risk reduction. Focus will be placed on incorporating the latest data into your high-risk clinic including a review of updated familial risk prediction models incorporating SNPs and the challenges surrounding multigene panel testing as it applies to risk management and interpretation. New this year, event attendees will have the opportunity to share, through an online survey, the clinical and administrative challenges faced in their high-risk clinics to be discussed by our expert panel. The course is applicable to a wide range of healthcare practitioners including nurses/nurse navigators, gynecologists, oncologists, surgeons, genetic counselors, primary care physicians and social workers.

Tuesday, March 13

7:00 - 7:45 am  Breakfast Symposia with Myriad

8:00 - 8:30 am  Negative Genetic Testing and Family History: Is My Patient Still at Increased Risk of Breast Cancer? Holly Pederson, MD

8:30 - 9:00 am  What Breast Cancer Risk Model/Version Should I Use and Why? Jack Cuzick, PhD

9:00 - 9:30 am  Increased Risk of Breast Cancer and Negative Genetic Testing: What is the Most Effective Regimen for Breast Cancer Screening and Risk Reduction? Sandhya Pruthi, MD, FNCBC

9:30 - 9:45 am  15 Minute Break

9:45 - 10:15 am  Beyond Traditional Genetic Testing: SNPs for Risk Prediction and Tumor Genomic Testing Ken Offit, MD

10:15 - 10:45 am  Be Prepared for Incidental Findings on Panel Testing: A Review of BRCA1/2 and Other Less Common Hereditary Breast Cancer Syndromes Jessica Salamone, MS, CGC

10:45 - 11:15 am  Novel Hereditary Breast Cancer Genes and Their Associated Cancer Risks Erin Hofstatter, MD

11:15 - 12:30 pm  Lunch on Your Own

12:30 - 1:00 pm  Management of the Moderate Risk Mutation Carrier Erin Hofstatter, MD

1:00 - 1:30 pm  Panel Testing: Choosing a Laboratory, The Complexities of Test Result Interpretation, Variant of Uncertain Significance and Obtaining Informed Consent Edie Smith, DNP, Advanced Genetics Nurse

1:30 - 2:00 pm  The New Challenges of Pre- and Post- Test Counseling: Providing Effective Genetic Counseling Services Outside of the Traditional High-Risk Genetics Clinic Jessica Laprise, MS, CGC

2:00 - 2:30 pm  Identifying High Risk Patients in a Diagnostic Imaging Center Jessica Salamone, MS, CGC

2:30 - 2:45 pm  15 Minute Break

2:45 - 3:15 pm  The STAT Genetic Patient: Options for Streamlining Counseling Services for Surgical Decision Making Patients Jennifer Scalia Wilbur, MS

3:15 - 3:45 pm  Interactive Attendee Survey and Panel

  Moderator: Jessica Laprise, MS, CGC

  Panel: Erin Hofstatter, MD; Jessica Salamone, MS, CGC; Holly Pederson, MD; Sandhya Pruthi, MD, FNCBC; Edie Smith, DNP, Advanced Genetics Nurse

3:45 - 4:15 pm  Case Review with our Expert Panel

  Moderator: Jennifer Scalia Wilbur, MS

  Panel: Erin Hofstatter, MD; Jessica Salamone, MS, CGC; Holly Pederson, MD; Sandhya Pruthi, MD, FNCBC; Jessica Laprise, MS, CGC, Edie Smith, DNP, Advanced Genetics Nurse
The Navigator Puzzle: Navigation Piece by Piece

Melissa Hopkins, RN, BA, CNBN & Eleanor Broaddus, RN, CN-BN, CBEC, BSEC

A Navigator is one of the most unique professionals that intertwine with patients and their families on multiple levels and in all domains of personal, imaging and breast cancer care. This is a truly strong statement for your value as a Navigator entrusted with the flow of patient care. Every year NCBC offers Navigation courses as requested by the Navigators to update knowledge, skills and information in your comprehensive work with patients. A strong base understanding of barriers and ways to eliminate those barriers to care are essential. This year, 2018, NCBC is proud to bring you lectures from the experts in care such as:

- See how Navigators mesh with other professionals in the Tumor Board
- Mechanisms of Lymphedema
- Talking with Children
- In depth information on Mastalgia
- Navigator to Navigator Real Case Studies Panel with attendee interaction
- Pieces to the Puzzle Navigator post conference
- And many other conference offerings that tailor to your unique practice

Navigation is an ever-evolving field that requires a broad and deep understanding of the patient’s pathway to survivorship and even end-of-life care. You will emerge stronger, better connected and ready for strengthening or re-energizing your current program.

We look forward to seeing you there!

Dr. Harold Freeman Patient Navigation Institute Navigation Review Course
Harold P. Freeman MD; Rebecca Crane-Okada, PhD, RN, CNS, AOCN; Courtney Bowen MS

Healthcare professionals and advocates including but not limited to nurses, radiology technicians, other licensed providers and non-licensed navigators will be presented with the most current information on navigation of breast patients across all phases of the healthcare continuum including outreach, screening, diagnosis, treatment and survivorship. The curriculum will include various modules of navigation which will familiarize participants with the skill sets required to navigate breast patients through various phases of the health care continuum. The trainees will be provided with pertinent information in preparation of the NCBC certification examination.

Breast Center Administrative ToolKit: From Planning to Successful Execution
Jane Berz RN, MSN, FNCBC & Deborah Dix, MS, RN

Breast Center Administrators must wear many hats across multiple service lines and systems, all within a rapidly changing healthcare landscape. This workshop will provide innovative insights and best practices for strategically planning, building, and growing a quality breast program while planning for future success.

Tuesday, March 13

7:00 - 7:45 am  Breakfast Symposia with Myriad

8:00 - 8:30 am  Keys to Success with NAPBC Surveys
Dava Gerard, MD

8:30 - 9:00 am  Building a High Risk Breast Program: Purpose, People, Process & Payment
Brian Allyn, MHA

9:00 - 9:30 am  Successful Pre-Hab Implementation: On-boarding the Program
Megan Pfarr, DPT, CL

9:30 - 9:45 am  15 Minute Break

9:45 - 10:15 am  Future Financial Challenges: Where is Reimbursement Heading?
Khai Tran, MD

10:15 - 10:45 am  Choices for Navigator Roles: Identifying the Appropriate Navigator Model for Your Program
Jill Shultz, BA, RT(R)(M)(QM), CN-BM

10:45 - 11:15 am  Innovative Solutions to Lymphedema Management
Kim VanYsseldyk, NP, RN

11:15 - 12:30 pm  Lunch on Your Own

12:30 - 2:30 pm  NQMBC Mini-Intensive

- Powerful Tool for your Breast Center: Then, Now and Future
  Cary Kaufman, MD, FACS, FNCBC

- Setting Your Program Up for Success: Value, Leadership, Tools and Process
  Teresa Heckel, MBA, FABC, FNCBC

- Leveraging Your IT Solutions for Breast Data Reporting
  Penne Perry, CTR

- Getting Started, Creating Success
  Terry Bucknall, BA, RT(R) (T), CRA, FAHRA, FNCBC, CN-BI, FNCBC

- Demonstrating the Value of NQMBC to Your Organization, Your Community
  Beth Ann Lesnikoski, MD

2:30 - 2:45 pm  15 Minute Break

2:45 - 3:15 pm  Models for Mid-Level Provider Clinics in Your Breast Center
Kim VanYsseldyk NP, RN

3:15 - 3:45 pm  Building a System: Infrastructure for Patient Family Advisory Councils
Roberta Mori RN, MSN

Jane Berz RN, MSN, FNCBC, FNCBC
NCBC Invites you to submit an abstract to the 28th Annual Interdisciplinary Breast Center Conference
You and your breast center team are invited to submit an abstract to the 28th Annual Interdisciplinary Breast Center Conference, being held at the Paris Las Vegas March 9-14, 2018. The abstract/poster program provides a great opportunity to share your experience and research with other breast health care professionals. The goals of this session are to facilitate communication between breast care centers, to disseminate knowledge that may be useful to our members, and to give recognition to outstanding submissions.

To Participate
To participate, email your abstract and the Abstract Application to the NCBC office at NCBCabstracts@breastcare.org by the due date, December 18, 2017. Faxed abstracts will not be accepted. Submission(s) will be peer reviewed and the abstract author(s) notified of acceptance for poster display at the 2018 Conference. The NCBC will host a special Poster Reception on the evening of Sunday, March 11, 2018. NCBC will invite the authors of one abstract submitted to each of the three major categories, as well as up to four abstracts submitted by trainees (fellows, residents, students and other trainees), one of which will be designated the Fellow/Resident/Student Award-winning author, to present their abstracts during the Oral Abstract Presentation Session on Sunday, March 11, 2018. Category oral abstract presenters will be awarded a monetary gift of $100. The Fellow/Resident/Student Award* recipient will receive a monetary gift of $200 and complimentary registration to the conference. Oral presenters will be chosen only from abstracts submitted by December 18, 2017. Final acceptance of an abstract and reservation of space at the Poster Session requires that one of the listed authors be registered for the conference by January 27, 2018. *The Abstract Application and Guidelines for the Fellow / Resident / Student Award can be found at https://www2.breastcare.org/abstracts/

Category I - Oral Presenter Award Winner
Impact of A Robust High-Risk Screening Program On Uptake of Genetic Testing And Breast MRI Surveillance In A Community Setting
Kamaneh Montazeri, MD

Category II - Oral Presenter Award Winner

Rakesh Patel, MD

Category III - Oral Presenter Award Winner
High BMI Is Associated with Higher Infectious Complications Requiring Reoperation After Nipple Sparing Mastectomy
Atilla Soran, MD, MPH, FACS, FNCBC

Resident/Student Award Winners
Advanced Image Guided Breast Surgery and the Use on Oncoplastic Techniques Significantly Reduce Margin Positivity in Breast Conserving Surgery
Tolga Ozmen, MD

Carneys Complex: Multi-Modality Breast Imaging Findings  Hemi Dua, MD
The Breast Patient Navigator Certification has been developed to set standards of achievement and the professional’s role, enhance patient safety, improve the quality of care and delivery of services, and recognize professionals who advance beyond basic knowledge in a field of specialty. The Breast Patient Navigator Certification validates the medical professional’s knowledge and performance standards through testing. Certification reflects an individual’s achievement beyond licensure requirements and a basic level of knowledge. It exhibits dedication to validating a specific set of skills to provide enhanced care and services for patients and clients through advanced competency.

Criteria for the application to test are listed below. The NCBC Breast Patient Navigation Certification Program offers six types of Breast Patient Navigator Certifications: The Certified Navigator – Breast in Imaging, Management, Advocate, Clinical, Provider, or Nurse.

**CERTIFIED NAVIGATORS – BREAST (+ individual designation based on licensure)**
- **CN-BI** = Diagnostic Imaging/Treatment Techs (All technologists from diagnostics to treatments)
- **CN-BM** = Management/Social Worker (All social workers and managers of navigators)
- **CN-BA** = Advocate (All volunteers/lay navigators)
- **CN-BC** = Clinical (All certified medical assistants, technicians, licensed practical/vocational nurses)
- **CN-BP** = Provider (All breast care diagnosticians, nurse practitioners, physicians, physician assts, breast care PhDs)
- **CN-BN** = RN (All registered nurses from breast care, diagnostic imaging, treatment, survivorship, genetics)

**Certification Eligibility Requirements:** The applicant must:
- Be a licensed medical professional and hold a valid medical license as a physician, nurse, physician assistant, social worker, radiologic technologist, radiology practitioner assistant, social worker, or advanced practice nurse OR
- Be master level prepared in a health related field; OR
- Be a lay or volunteer navigator and have taken an approved patient navigation course; AND
- Navigate breast patients for at least 25% of the applicants job responsibility OR
- Have supervision of breast patient navigators; and
- Provide proof of valid license or certification (not required for those taking the Advocate examination); and
- Pay the certification fee of $300 registration for current NCBC members (Current membership is required to maintain certification)
- Have current NCBC membership

**Certification Eligibility Recommendation but not a Requirement:**
- The applicant applying for certification should have at least two years’ experience of navigating breast patients. This recommendation is based upon the review of the experience levels of those sitting for the exam and their passing or not passing the examination.

As soon as a person successfully enrolls for the program, a self-study binder is emailed within 7 working days. The binder does not contain all the material the applicant should review to prepare for the examinations. To prepare for the examinations the applicant should refresh him/herself on information received during their medical professional training. The binder contains a list of resources from which questions/answers were validated.

A passing score is of 80% or better is required to become certified. If an individual does not pass the examination, he/she may sit for the examination again during the next 12 months with no additional fee.

**Navigator testing is available Tuesday or Wednesday at these times:**

- **Chair:** Melissa Hopkins, RN, BA, CN-BN, FNCBC
- **Medical Advisor:** Dr. John Bell, MD, FACS
- **Medical Advisor:** Dr. Ernie Bodai, MD, FACS, FNCBC
- **NCBC Staff Manager:** Jennifer Cobb-Hayes, MSM, Ed.D (ABD)
CBE Certification Program

Chair: Belinda Zaparinuk, RT(M)(BS), CBEC, FNCBC; Cathy Cole, NP, CBEC, FNCBC; Tracey Gomez, NP, CBEC; Debora Wright, RT(M), CBEC; Vicki Koceja, RN-BC, OCN, MBA, FAAMA, PhD; Eleanor Broadus, RN, CN-BN, BSEC; Stacy Fisher-Biller, RN, CBEC

The purpose is to assure the public that the certified licensed breast health care provider has completed the NCBC CBE® program and has met minimum knowledge and performance standards by recognizing the individual who has met these standards. Candidates who pass the CBEC® may use the mark CBEC® to verify they have met all eligibility and testing requirements.

This one and a half day program is designed to utilize Clinical Breast Examination Skills to accomplish a CBE’s Paramount Objective, the detection of any palpable breast mass, as another early detection tool to ultimately reduce breast cancer deaths. This is accomplished through a didactic review of Core Breast Knowledge, BSE Technique, Breast Oriented History, Breast Imaging, Diagnostic Procedures with Breast Pathology, Follow-up Recommendations and Risk Management. The didactic component of the program is followed by a full half day of demonstration and practicum on performing a Clinical Breast Examination. Patient models, students and instructors will interface in live scenarios to experience issues and challenges in performing clinical breast exams. This is a validation and certification program of the individual’s current skills, and not designed to teach an individual who has not performed Clinical Breast Examinations.

Each student will receive resource materials that outline the major concepts that will be highlighted during the program and information that will be on the testing units. Also included in the resource materials are supplemental reading materials as well as a vocabulary list to assist in the understanding of program material. All test information is included in the resource material. Following Clinical Breast Examination performance review, students will be evaluated on their core knowledge, ability to perform a Clinical Breast Examination with a mock patient situation setting and their tactile skills regarding lump detection. A score of 85% or better must be achieved on the didactic written exam, the performance observation exam and tactile testing in order to pass the program and receive certification.

This program is available to licensed healthcare professionals (physicians, physician assistants, nurse practitioners, registered nurses and radiologic technologists). It is mandatory that individuals be actively performing clinical breast examinations as part of their ongoing job responsibilities. Although this program will provide core knowledge and review performance and tactile skills, this CBE Certification Program is not designed as an entry level or introductory course for practitioners interested in learning basic CBE skills. This CBE Certification Program is designed for practitioners seeking CBE Certification as validation of their mastery of the breast health knowledge and CBE skills.

Wednesday, March 14

7:30 - 8:30 am Core Knowledge Test
8:35 - 1:00 pm Performance and Tactile Testing According to Test Schedule
**General Information**

**Meals:** The registration fee includes complimentary breakfast symposia, lunches, breaks and receptions, Saturday through Monday. Each registrant will be provided a package of meal/beverage and special reception tickets with their registration materials. If a meal ticket is lost a replacement may be purchased at $75 per meal function. Beverage tickets will not be replaced. Exhibitors should reference their exhibitor package for ticket details. Family or friends that would like to attend breakfast or lunch may do so at the above rate. **We work very diligently to provide each meal to have a variety of choices to meet all special needs in food. If you require specific meal needs please refer to Paris restaurants for additional options.**

**Breakfast Symposia:** Enjoy breakfast each morning (Saturday - Tuesday) while learning about new and upcoming products from outstanding companies. Each morning, breakfast will be served from 6:45 – 7:45am.

**Saturday, We Welcome Our Exhibitors:** This reception is designed to allow guests to visit the exhibits, learn about new products and services, socialize and establish new relationships with professional peers from around the country. The afternoon break is your opportunity to register for the raffle prizes. Winners will be announced during our special Product Showcase at 5:30 – 5:45 pm, then during the reception from 5:45 - 7:00 pm we hope conference guests use this time to meet the fellow professionals and the appetizers and cash bar. After the exhibitor Reception, you may take in the sites of Las Vegas.

**Sunday Evening’s Poster Reception:** This event is designed to allow guests to view all posters on display and interact with the authors and presenters. The three poster winners will present their poster during this time, along with three International Delegates who will proudly update attendees on the progress each of their countries are making to better care for women. We hope conference guests use this time to learn about ground-breaking new programs and treatment techniques being implemented by breast health care facilities worldwide while enjoying this wine and cheese reception.

**Exhibit Hall:** An array of specialized technology, equipment, products, and services will be on display for breast centers, group practices, and practitioners of breast health care. Exhibits will be open during non-lecture times (breaks, meals and receptions). Visit the NCBC website www.breastcare.org to view a list of all exhibitors to date.

**Recommended Dress:** Business casual. Temperatures in meeting rooms and personal comforts vary greatly. As meeting rooms usually seem cold, please bring a sweater or jacket to compensate.

**Registration Materials:** Each attendee will receive a conference program, which will contain a link to view speaker information on line, conference logistic information, exhibitor and sponsor listings and other pertinent information. The conference app will be available for review by registered attendees on March 5, 2018.

**Disability Statement:** If you have a disability, please contact the NCBC office by January 24, 2017 to notify the staff of any special needs in order to help us better serve you.

**Consent to Use Photographic Images:** Registration and attendance at, or participation in, NCoBC meetings and other activities constitutes an agreement by the registrant to NCBC’s use and distribution (both now and in the future) of the registrant or attendee’s image.

**Evening Networking:** For individuals attending the conference alone or wanting to meet peers from around the country. The Evening Networking Program has been very successful. If you are attending the conference without your coworkers, friends or significant other and would like to experience what Vegas has to offer, but not alone, this is the group to join! Julie Susi from Mercy Hospital in Portland, Maine and Ann Livingston from Sinai Grace Hospital Mammography Center in Detroit, Michigan, will bring together conference attendees who will be attending by themselves and want to meet peers from around the country. Julie plans to organize individuals into small networking groups to enjoy Vegas in the evenings after the day-long conference. If you are attending the conference alone and would like to network with a group of fellow peers contact Julie Susi at susij@mercyme.com and let her know your arrival date and time. You will be invited to a meeting to organize and break off into groups according to interests, i.e. dancing, exercise, dinner, shows, gambling, shopping, etc. It’s a sure way to network and have lots of fun!
